ABOUT US

INFRASTRUCTURE & PEOPLE

LOOKING INTO THE FUTURE

OUR KEY DIFFERENTIATORS

WHO ARE WE?

Incorporated in 2012, we are an established player in the space of Pharma and Life Sciences CRO & CRAMS with proven expertise in the kilo-lab scale manufacturing of speciality chemicals

Our Offerings

CRO and CRAM Synthesis

Collaborate & custom synthesize in the research activity with major clients in the field of new bioactive molecules

Fine chemicals manufacturing

Developed deep expertise in handling of complex chemistry and evolved as reliable supplier of intermediates from R&D scale to semi-bulk

3rd party mfg. services

Facilitating our ecosystem partners to leverage our unmatched infrastructure by providing Job Work services

Our enablers

1

Bullethead focus on customer satisfaction

2

Documented processes and adherence

3

Well trained & experienced chemists

4

Spacious & clean facilities

5

Best-in-class equipment

VISION

We envision to establish ourselves as a leading innovation based and technology driven firm focused on helping Life Sciences companies in their journey of developing novel products for improving the health and quality of human lives

MISSION

We are committed to bring the best-in-class CRO and CRAMS services and capabilities to our partners while ensuring the highest levels of quality and compliance. Our endeavour is to fusion with our responsible clients as a long term trusted partner.

BREADTH AND DEPTH OF OUR SERVICES

From milligram scale to semi-bulk, we have the experience of delivering numerous fine chemicals involving a host of complex reactions. In the past 3 FYs we have delivered 50+ novel molecules

Delivered Speciality Chemicals

Bromo-Indoles Flavanones Acetophenones **Isoflavones**
Benzo-Furans Allyl Compounds Bi-Phenyls
Chromones **Flavones** Nitro compounds **Coumarins** Chalcones
Amines Chromanones Acids & Phenols Amino Acids
Thiozole Derivatives **Imidazole derivatives** **Pyridine derivatives**
Pyrimidine derivatives Carbonyls **Pyrazoles** Nitrogen Heterocycles
Benzophenones **Carbohydrates** Thio compounds
Pyrroles Oxazole Derivatives **Boronic Acids** **Bromo-Iodo-Indoles**

Reaction Capabilities

-  Buchwald Suzuki coupling
-  Butyl-Lithium reactions
-  LDA reactions
-  DIBAL reactions
-  Sodium Hydride reactions
-  LAH reactions
-  Hydrogenation reactions

... And many more! We often challenge ourselves to build new capabilities

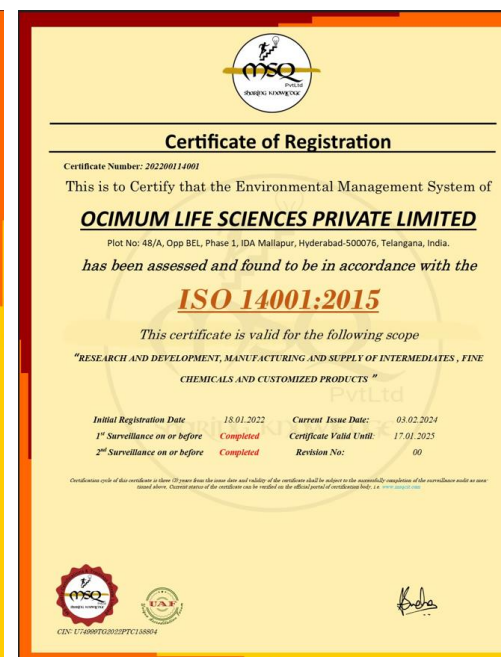

QUALITY, SAFETY & COMPLIANCE COMMITMENT

Quality is at the heart of our business practices while simultaneously ensuring compliance and safety

Our Practices

- Defined & documented SOPs
- Partnered with best-in-class analytical service providers
- Periodic internal & external audits
- Clean & dust-free labs
- Superior quality supplier base
- Defined vendor qualification policies
- Regular employee trainings
- Periodic safety drills
- Licensed user of Academia platforms like Reaxys

Certifications to collaborate our practices

We have zero tolerance towards drug abuse and strongly comply to the The Narcotic Drugs and Psychotropic Substances, Act, 1985. We enact stringent undertakings with our partners before the business

OUR INFRASTRUCTURE

We have created the best in class infrastructure with adequate equipment backups to support our customer needs ranging from R&D to semi-bulk

Facility 1

- ✓ 6000 sqft. lab area + 3000 sqft. stores area with CFO and CFE from PCB
- ✓ Dedicated spaces for R&D and scale-up
- ✓ Fuming and walk-in hoods to prevent cross contamination

📍 [Google Maps Link](#)

Facility 2

- ✓ To be occupied by Q3 FY25
- ✓ 8755 sqft. construction area
- ✓ Work in progress for creation of a GMP auditable facility

📍 [Google Maps Link](#)

Equipment

All glass reactors

- 1 x 200 litres
- 1 x 100 litres
- 3 x 50 litres
- R&D scale 20 litres to 0.1 litres

Rotavapors

- 3 x 50 litres
- 2 x 20 litres
- 2 x 3 litres

Pressure reactors

- Amar Equipment
- 1 x 100 ltrs/100 bar
- 1 x 25 ltrs/100 bar
- 1 x 10 ltrs/100 bar
- 1 x 1 ltr. par-shaker

Centrifuge

- 18 inches SS316 JOFLO make
- GMP model

Column chromatography

- Capability to handle 0.1kg to 100kg silica gel

Ozone generators

- 100ml/hr generation rate

Chillers & Freezers

OUR PEOPLE

We take pride in having a versatile team with a strong industry experience. Our focus remains in ensuring employee satisfaction and their capability development

Board of directors

Dr N R Srinivas

Founder, MD & CEO

Visionary entrepreneur, leader and a veteran in the space of Life Sciences CRO. PhD in Organic Chemistry from IICT (1993)

Smt. N Kalyani

Director - Admin

Distinguished professional with a rich experience in managing general admin and financial advisory

Y Thirupathi Reddy

Director - Operations

Seasoned expert in dealing with complex & hazardous chemistry. A natural team leader & an MSc Chemistry graduate

N Ajay

Director – Business Strategy

Experienced professional with strong business acumen and specializing in driving growth and profitability. Holds an MBA degree from IIM Mumbai (2020)

Our team

Young & dynamic team of 18 employees

100% employee satisfaction

6.5 years of median work exp.

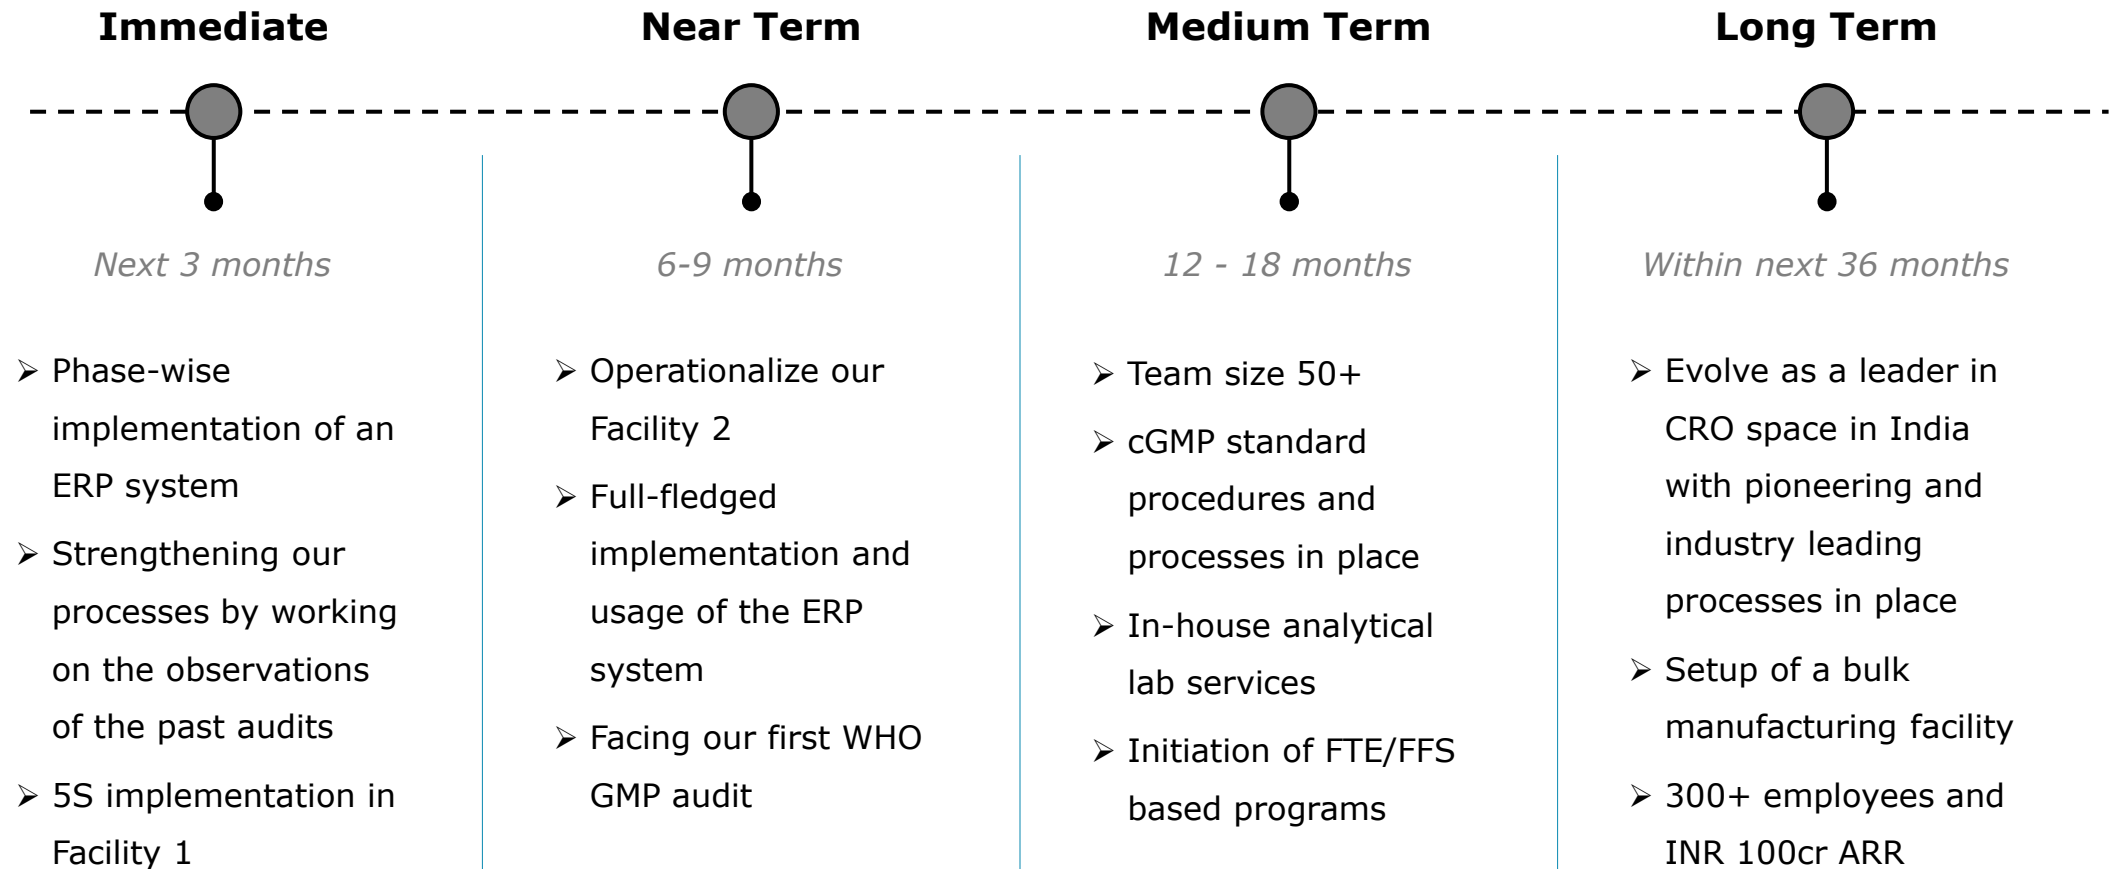

Defined roles and responsibilities

Dedicated stores & QA personnel

LOOKING INTO THE FUTURE

We have outlined a clear path to embark on the journey of becoming a leader in the space of Pharma CRO and CRAMS

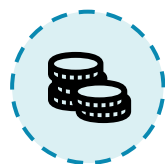

WHAT DIFFERENTIATES US FROM OTHERS?

With a pivoted focus on customer satisfaction, we always strive to ensure the win-win situation

Price competitiveness

We deliver quality services and products at an industry revolutionizing prices

Aggressive lead times

Ably supported by our vision and supply chain partners, we have the ability to crash the lead times from R&D to scale-up

We are prompt in our communication & feedbacks to our partners. Our detailed reports will make you feel to be as good as you are in our premises

Information Transparency

Our lean mindset and experienced chemists can help you work around your synthesis route to improve process yields

Process Yield optimization

Confidentiality

We are perceived as a trusted partner owing to our commitment to protect the privacy of our client information and have the practice of entering into a CDA/NDA

THANK YOU

Dr N R Srinivas
